Plant, Cell and Environment (1989) **12**

Contents

PART 1

1 The effect of air pollutants on physiological processes in plants: review
N. M. Darrall
31 Fruit photosynthesis: review
M. M. Blanke & F. Lenz
47 Salt-tolerant *Triticum* × *Lophopyrum* derivatives limit the accumulation of sodium and chloride ions under saline-stress
D. P. Schachtman, A. J. Bloom & J. Dvořák
57 Discrepancies between water potential isotherm measurements on *Pinus ponderosa* seedling shoots: xylem hysteresis and apoplasmic osmotic potentials
S. P. Hardegree
63 Diurnal water storage in the stems of *Picea sitchensis* (Bong.) Carr.
R. Milne
73 Abscisic acid produced in dehydrating roots may enable the plant to measure the water status of the soil
J. Zhang & W. J. Davies
83 Differential desiccation sensitivity of corn and *Pennisetum* pollen linked to their sucrose contents
F. A. Hoekstra, L. M. Crowe & J. H. Crowe
93 Leaching of solutes by the action of acidic rain: a comparison of efflux from twigs and single needles of *Picea abies* (L. Karst.)
E. Mitterhuber, H. Pfanz & W. M. Kaiser
101 A carbon balance model of the sorghum-*Striga hermonthica* host-parasite association
J. D. Graves, M. C. Press & G. R. Stewart
109 A reduction in the abundance of calcium oxalate crystals in *Oenothera* improves the yield of intact chloroplasts: short communication
R. Wolfson & B. B. Sears
113 Book reviews

PART 2

119 Temperature sensing by plants: a review and hypothesis
P. V. Minorsky
137 Electrophysiological evidence for a role for calcium in temperature sensing by roots of cucumber seedlings
P. V. Minorsky & R. M. Spanswick
145 Frequency as a property of physiological signals in plants: an opinion
G. Due
151 Does turgor prevent endocytosis in plant cells?: theoretical paper
D. Gradmann & D. G. Robinson
155 The effect of sodium fluoride on cereal seed germination and seedling growth
J. Kaur & C. Duffus
163 Osmotic stress, endogenous abscisic acid and the control of leaf morphology in *Hippuris vulgaris* L.
T. E. Goliber & L. J. Feldman
173 Changes in glutamate dehydrogenase activity of *Chlyamydomonas reinhardtii* under different trophic and stress conditions
J. Muñoz-Blanco & J. Cardenas
183 Germination of cocklebur seed and growth of their axial and cotyledonary tissues in response to C_2H_4 CO_2 and/or O_2 under water stress
Y. Esashi, Y. Abe, H. Ashino, K. Ishizawa & K. Saitoh
191 Microsome protein phosphorylation in *Acer pseudoplatanus* cells as influenced by intracellular alkalinization
B. Basso, P. Rosa & L. Tognoli
197 Drought adaptability of *Agrobacterium rhizogenes*-induced roots in oilseed rape (*Brassica napus* var. *oleifera*)
N. Vartanian & A. Berkaloff
205 The occurrence of amoeboid plastids in the actinorhizal root nodules of *Alnus glutinosa* (L.) Gaertn.
I. C. Gardner, H. Abbas & A. Scott
213 Water potential and plant metabolism: comments on Dr P. J. Kramer's article 'Changing concepts regarding plant water relations', Volume 11, Number 7, pp. 565–568, and Dr J. B. Passioura's response, pp. 569–571
J. S. Boyer
217 Book reviews

PART 3

221 The influence of transpiration on the equilibration of leaf water with atmospheric water vapour
C. D. Walker, F. W. Leaney, J. C. Dighton & G. B. Allison
235 Foliar stage in wheat correlates better to photothermal time than to thermal time
J. Masle, G. Doussinault, G. D. Farquhar & B. Sun

249 Histochemistry, ultrastructure and possible significance of dead parenchyma cells with specialized walls in leaf and rhizome of *Sansevieria*
A. Alfani, R. Ligrone, A. Fioretto & A. Virzo de Santo
261 Effects of nitrogen deficiency on leaf photosynthetic response of tall fescue to water deficit
J. Ghashghaie & B. Saugier
273 Identification of cytokinins in primary crown gall tumours of tomato
S. K. Nandi, L. M. S. Palni, D. S. Letham & O. C. Wong
285 Citric acid excretion and precipitation of calcium citrate in the rhizosphere of white lupin (*Lupinus albus* L.)
B. Dinkelaker, V. Römheld & H. Marschner
293 Oxygen diffusion and dark respiration in aquatic macrophytes
B. K. Sorrell & F. I. Dromgoole
301 Empirical models of the conductance of leaves in apple orchards
H. G. Jones & K. H. Higgs
309 Effect of competition and leaf age on visible and infrared reflectance in pine foliage
G. A. Carter, K. Paliwal, U. Pathre, T. H. Greene, R. J. Mitchell & D. H. Gjerstad
317 Relative growth rates of leaves from soybean grown under drought-stressed and irrigated field conditions
H. C. Randall & T. R. Sinclair
323 Cartesian-diver microrespirometry: a technique for the accurate measurement of respiratory flux in plant cells: technical report
J. H. Owen & J. Laybourn-Parry
331 Crassulacean acid metabolism (CAM) in high elevation tropical cactus: short communication
J. E. Keeley & S. C. Keeley
337 The pattern of secondary root formation in curving roots of *Arabidopsis thaliana* (L.) Heynh.: short communication
M.-C. Fortin, F. J. Pierce & K. L. Poff
341 Book reviews

PART 4

343 The influence of simulated shadelight and daylight on growth, development and photosynthesis of *Pinus radiata, Agathis australis* and *Dacrydium cupressinum*
I. J. Warrington, D. A. Rook, D. C. Morgan & H. L. Turnbull
357 The kinetics of P-700$^+$ reduction in leaves: a novel *in situ* probe of thylakoid functioning
J. Harbinson & C. L. Hedley
371 Characterization and propagation of acoustic emission signals in woody plants: towards an improved acoustic emission counter
M. T. Tyree & J. S. Sperry
383 Wall extensibility, wall pH and tissue osmolality: significance for auxin and ethylene-enhanced petiole growth in semi-aquatic plants
I. Ridge & D. J. Osborne
395 Vascular transport and soybean nodule function: nodule xylem is a blind alley, not a throughway
K. B. Walsh, M. E. McCully & M. J. Canny
407 Relationships between nitrogen uptake and carbon assimilation in whole plants of tall fescue
F. Gastal & B. Saugier
417 Nitrate availability and shoot area development in small willow (*Salix viminalis*)
A. James S. McDonald
425 Epidermal conductance, stomatal density and stomatal size among genotypes of *Sorghum bicolor* (L.) Moench
R. C. Muchow & T. R. Sinclair
433 Growth response of *Rumex* species in relation to submergence and ethylene
L. A. C. J. Voesenek & C. W. P. M. Blom
441 Leaf wall yield threshold of field-grown soybean measured by vapour pressure psychrometry
H. C. Randall & T. R. Sinclair
449 Kinetics of thigmocurvature in two tendril-bearing climbers
C. M. S. Carrington & J. Esnard
455 Ascorbate free radical enhances vacuolization in onion root meristems
A. Hidalgo, J. A. Gonzalez-Reyes & P. Navas
461 A compact lighting system for use with portable leaf chambers to measure photosynthesis: technical report
A. T. Young, G. E. Harrison & D. W. Lawlor
467 Book reviews

PART 5

471 Heat shock proteins in *Sorghum bicolor* and *Pennisetum americanum* I. genotypic and developmental variation during seed germination
C. Howarth
479 Assessing the phytotoxicity of mononuclear hydroxy-aluminium
T. B. Kinraide & D. R. Parker
489 The fate of vitamin D_3 and indolylbutyric acid applied to cuttings of *Populus tremula* L. during adventitious root formation
F. Pythoud & A. J. Buchala

495 Cold-acclimation of *Hibiscus rosa-sinensis* L. and *Hibiscus syriacus* L. in natural and controlled environments
T. M. Teets, R. L. Hummel & C. L. Guy
503 Cold tolerance in *Sporobolus virginicus* (L.) Kunth robust form, tissue cultures and whole plants
P. F. Straub & J. L. Gallagher
511 The 'end-of-day' phytochrome control of internode elongation in mustard: kinetics, interaction with the previous fluence rate, and ecological implications
J. J. Casal & H. Smith
521 The formation and distribution of ice within dormant and deacclimated peach flower buds
E. N. Ashworth, G. A. Davis & M. E. Wisniewski
529 Comparative sensitivity of 'Prior Lisbon' lemon and 'Valencia' orange trees to foliar sodium and chloride concentrations
J. Lloyd, P. E. Kriedemann & D. Aspinall
541 Expression of C_4-like photosynthesis in several species of *Flaveria*
B. D. Moore, M. S. B. Ku & G. E. Edwards
551 Na–Ca interactions in barley seedlings: relationship to ion transport and growth
G. Cramer, E. Epstein & A. Läuchli
559 Photosynthetic and stomatal responses of the halophyte, *Plantago maritima* L. to fluctuations in salinity
L. B. Flanagan & R. L. Jefferies
569 The nature of protein differentiation in the growing pea root
E. Allan & A. J. Trewavas
581 Some effects of nitrate-treated soil upon sensitivity of buried redwood pigweed (*Amaranthus retroflexus* L.) seeds to ethylene, temperature, light and carbon dioxide
G. H. Egley
589 Book reviews

PART 6

595 The molecular anatomy and function of thylakoid proteins: review
J. B. Marder & J. Barber
615 Stable isotope carbon study: long-term partitioning during progressive drought stress in *Brassica* v. *oleifera*
E. Deleens, L. Marcotte, N. Schwebel-Dugue & N. Vartanian
621 Regulation of glycerol and starch metabolism in *Chlamydomonas pulsatilla* in response to changes in salinity
J. A. Hellebust & Yi-Hung Lin
629 Salt stress in cultured rice cells: effects of proline and abscisic acid
P. B. Kavi Kishor
635 Stomatal control of transpiration from a developing sugarcane canopy
F. C. Meinzer & D. A. Grantz
643 Shoot temperatures and thermal tolerances for succulent species of *Haworthia* and *Lithops*
P. S. Nobel
653 Variation in stomatal characteristics over the lower surface of *Commelina communis* leaves
S. Smith, J. D. B. Weyers & W. G. Berry
661 Photoperiod control of the initial phase of frost hardiness development in *Pinus radiata*
D. H. Greer, C. J. Stanley & I. J. Warrington
669 Theory and practice of a portable photosynthesis instrument: technical report
R. Leuning & P. Sands
679 Book reviews

PART 7

683 Water balance of N_2-fixing root nodules: Can phloem and xylem transport explain itself?: opinion
J. A. Raven, J. I. Sprent, S. G. McInroy & G. T. Hay
689 On the significance of C_3–C_4 intermediate photosynthesis to the evolution of C_4 photosynthesis: opinion
R. K. Monson & B. D. Moore
701 Photoinactivation of catalase at low temperature and its relevance to photosynthetic and peroxide metabolism in leaves
S. Volk & J. Feierabend
713 Vascular transport and soybean nodule function: II. A role for phloem supply in product export
K. B. Walsh, M. J. Canny & D. B. Layzell
725 Greening and growth of suspension-cultured cells of *Chenopodium rubrum* under conditions of heterotrophic and autotrophic nutrition
P. Ziegler & R. Scheibe
737 The determination of sensitivity parameters for auxin-induced H^+-efflux from *Avena* coleoptile segments
P. J. Fitzsimons
747 The effect of photoperiod length on respiration in leaves of *Saxifraga cernua* L., an arctic herb
A. K. McNulty & W. R. Cummins
753 Salinity resistance in *Zea mays*: fluxes of potassium, sodium and chloride, cytoplasmic concentrations and microsomal membrane lipids
M. A. Hajibagheri, A. R. Yeo, T. J. Flowers & J. C. Collins
759 Photosynthetic activity of chloroembryos of a few selected tropical plants
R. Antoszewski, S. Dabydeen & A. Lalla

PART 8

765 Adaptations by macroalgae to low carbon availability. I. A buffer system to *Ascophyllum nodosum*, associated with photosynthesis
L. Axelsson, S. Carlberg & H. Ryberg
771 Adaptations by macroalgae to low carbon availability. II. Ultrastructural specializations, related to the function of a photosynthetic buffer system in the Fucaceae
L. Axelsson, S. Carlberg & H. Ryberg
779 Growth and nitrate uptake properties of plants grown at different relative rates of nitrogen supply. I. Growth of *Pisum* and *Lemna* in relation to nitrogen
P. Oscarson, B. Ingemarsson & C.-M. Larsson
787 Growth and nitrate uptake properties of plants grown at different relative rates of nitrogen supply. II. Activity and affinity of the nitrate uptake system in *Pisum* and *Lemna* in relation to nitrogen availability and nitrogen demand
P. Oscarson, B. Ingemarsson & C.-M. Larsson
795 Carbon isotope discrimination and the ratio of carbon gained to water lost in barley cultivars
K. Hubrick & G. Farquhar
805 Measurement of the photorespiratory activity of the submerged aquatic plant *Myriophyllum spicatum*
G. W. Owttrim & B. Colman
813 Epinasty promoted by salinity or ethylene is an indicator of salt-sensitivity in tomatoes
R. A. Jones & A. S. El-Beltagy
819 Effects of prolonged freezing stress on the apparatus of moderately hardy leaves as assayed by chlorophyll fluorescence kinetics
C. Schulteis & K. A. Santarius
825 Control of intracellular glutathione and its effect on ultraviolet radiation-induced K^+ efflux in cultured rose cells
A. J. Huerta & T. M. Murphy
831 Water storage and osmotic pressure influence on the water relations of a dicotyledonous desert succulent
P. J. Schulte, J. A. C. Smith & P. S. Nobel
843 Energy charge during aerobic and anaerobic imbibition of *Kalanchoë blossfeldiana* seeds: short communication
A. Dedonder, R. Rethy, H. Fredericq & J. A. De Greef
849 Book reviews

PART 9

855 The function, action and adaptive significance of phytochrome in light-grown plants: opinion
J. J. Casal & H. Smith
863 A model of nitrogen flows in grassland
J. H. M. Thornley & E. L. J. Verberne
887 Variation in stomatal aperture in leaves of *Avena fatua* L. observed by low-temperature scanning electron microscopy
P. R. van Gardingen, C. E. Jeffree & J. Grace
899 Physiological effects of long-term exposure to low and moderate concentrations of atmospheric NH_3 on poplar leaves
L. W. A. Van Hove, O. Van Kooten, E. H. Adema, W. J. Vredenberg & G. A. Pieters
909 Cell specialization within the parenchymatous bundle sheath of barley
M. L. Williams, J. F. Farrar & C. J. Pollock
919 Extraction and analysis of sap from individual wheat leaf cells: the effect of sampling speed on the osmotic pressure of extracted sap
M. Malone, R. A. Leigh & A. D. Tomos
927 Carbon dioxide enrichment reduces shoot growth in sweet chestnut seedlings (*Castanea sativa Mill.*)
M. Mousseau & H. Z. Enoch
935 The effect of soil drought on water-use efficiency in a contrasting Great Basin desert and Sierran montane species
E. H. DeLucia & S. A. Heckathorn
941 Comparison of photosynthesis and productivity of *Gunnera tinctoria* Molina (Mirbel) with and without the phycobiont *Nostoc punctiforme* L.: short communication
B. A. Osborne
947 An integrated portable apparatus for the simultaneous field measurement of photosynthetic CO_2 and water vapour exchange, light absorption and chlorophyll fluorescence emission of attached leaves: technical report
C. R. Ireland, S. P. Long & N. R. Baker
959 Book reviews
959 Instructions to contributors
